The image shows a Python IDE window titled '1A.py - C:/Users/maram/AppData/Local/Programs/Python/Python37-32/1A.py (3.7.0)'. The code in the editor is as follows:

```
studentname=("ali","sam","sami","maram","maisaa")
name=input("enter your name: ")
if name in studentname:
    print("you are graduated")
else:
    print("not graduated")
```

Below the editor is a 'Python 3.7.0 Shell' window. It displays the following text:

```
